Chicago, IL

MY TIME

- A Training
- B Travelling
- C Work meetings
- D Refreshing in nature
- E Family
- F Relaxing
- G Reading
- H Teaching

EDUCATION

Chemical engineering

University of Chicago

Chicago, IL

2008 - 2010

GPA

3.85 / 4.0

EXPERIENCE

Chemist

Stracke

2016 - ONGOING

Chicago, IL

- Developed Q-ICP-MS methods with collision reaction/reaction cell technology with Agilent 8800 ICP-MS
- Authored 12 highlight articles for the monthly journal SYNFACTS
- Ability to provide help to more than 15 patient within 5 hours accurately

Chemist

Heller

2013 - 2016

Colorado, New Jersey, New York

- 20 BS/MS.Sc students have completed their research projects
- New business development for local companies, identified 3 new markets with a team of the Chicago Consulting Club
- Head of chemical analysis lab

Researcher, Metal Organics and HPMO

Harvey

2011 - 2013

Chicago, IL

- Volunteer at the 3rd International IUPAC Conference on Green Chemistry

Intern

Wolf Inc

2010 - 2011

Chicago, IL

SKILLS

Biochemistry

MY LIFE PHILOSOPHY

Sooner or later on this journey, every traveller faces the same question: Are you a human intending to be a god, or a god pretending to be human?

Eric Michael Leventhal

Maryellen West

Chemist

Meticulous chemist with 5+ years' experience working directly with pharmaceuticals and their quality control. At Holden & Associates, performed quality control testing on 80+ products and reduced product costs by an average of 9% by changing existing formulations. Seeking to help maintain ZetaCeuticals' high standards while boosting efficiency.

Experience

2018-04 - present Chemist

Holden & Associates

- Performed quality control testing on 80+ products according to established GMP and SOP's.
- Produced and maintained calibration records, keeping error margins stable while reducing redundant re-calibrations by over 35%.
- Analyzed and certified 15+ complex liquid and gas calibration standards using gas chromatography.
- Reduced product costs by an average of 9% by changing existing formulations.

2016 - 2018-03 Junior Chemist

Howard's Laboratories

Analyzed 17 veterinary pharmaceutical products for purity, potency, and stability using established assays.

Maintained laboratory equipment like HPLC, UPLC, UV-Vis, FTIR, and dissolution apparatus.

Assisted with inventory and ordering of laboratory consumable supplies.

Documented work and maintained good laboratory records in notebooks and on controlled documentation.

Education

2016 BS in Chemistry, University of South Dakota

- Pursued a passion for organic synthesis through elective lab work.
- Active member of the Alchemists' Guild (chemistry and food science society).

Certifications

Certified Professional Chemist, National Certification Commission in Chemistry and Chemical Engineering, 2017

Clinical Chemist, National Registry of Certified Chemists, 2016
